

HEATHER DAVIDSON

WEB DEVELOPMENT

HEATHERLAUREN.ME | HELLO@HEATHERLAUREN.ME

SKILLS

JavaScript, Node.js, jQuery, React, HTML5, CSS3, Sass, Bootstrap, Git, Gulp, Postgres, Agile, Responsive and Mobile-First Design, Adobe Creative Suite, Sketch

EXPERIENCE

FULL STACK DEVELOPER

FOUNDERS & CODERS | JUNE 2016 - PRESENT

Developed a number of prototype and MVP web apps for charities and social enterprises. I primarily acted as lead developer on the front-end and UX/UI design, while also working in Node.js on the backend. Taught and acted as mentor on the Founders & Coders bootcamp, as well as taking a leading role in community outreach programmes.

FREELANCE | SEPTEMBER 2014 - MAY 2016

Worked with a range of clients to produce branding materials and websites, primarily with WordPress as a CMS.

INTERN

STIPSO | JUNE - SEPTEMBER 2014

Worked with the team's UX Designer to create 'living infographics' which display and collect data in real time for clients and internal use, mainly using Adobe Illustrator, HTML5 and Sass.

IN DETAIL

I'm a junior developer excited about creating innovative and user-focused products for web and mobile. I have proven experience working in a collaborative, agile process to produce web and hybrid apps, as well as familiarity with a wide range of front-end technologies. I'm also a skilled designer, with a background in responsive and mobile-first design.

As well as this, I'm an active member of the tech community, having spoken at a number of meetups and conferences both locally and internationally. I'm particularly passionate about tech education and widening access to the industry, and am involved with a number of diversity in tech initiatives.

EDUCATION

UNIVERSITY OF EDINBURGH

1:1 M.A. ANCIENT HISTORY | 2012 - 2016
